

# SPARK

## PRODUCT SHEET

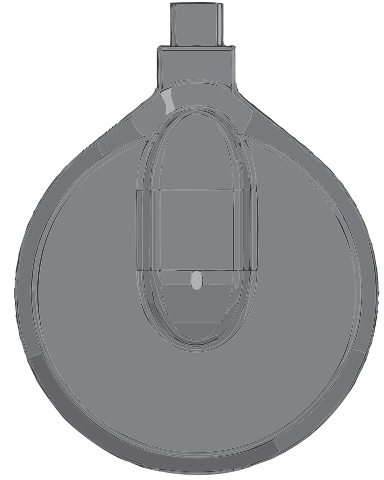

---

Apple Lighting  
(Apple Products)

mUSB  
(Android Products)

USB-C  
(New Android Products)

The Spark is a wireless charging receiver that allows any phone or tablet to use ChargeSpot. Simply place the plugged in Spark over a ChargeSpot to begin charging.

Many new smartphones do not require the Spark. They have a wireless charging receiver already built in (For example, the Samsung Galaxy S7 and S7 Edge).
